### AMUSEMENTS

#### Big Show at Airdome.

The coming week will witness an attraction extraordinary at the Bijou Airdome, the management having contracted with four big acts to appear, in addition to moving pictures of the very latest. For the past two weeks a three-act bill has been produced, but the coming week another first-class attraction has been added. The bill will open with Harry Feldman, billed as "The Man in Green," and who comes highly recommended. Murphy and Washburn, a team presenting high-class comedy will next be seen. They are known as "The Comedy Boomers," and have been appearing in the large cities prior to coming south on a tour of the largest of the cities. Wayne G. Christy, as a black-face comedian, is also on the bill, and he has received many favorable criticisms from the press where he has appeared.

The head-liner, however, will be the Three Copelands, and it is claimed for them that a higher class act is not on the circuit of the south than is presented by them. They appear as the "Rag Time Sailors," and have been greeted by immense audiences at every point where they have appeared. They carry special scenery for their act, and promise to create a sensation in vaudeville circles in Pensacola during the coming week.

#### At Palmetto Beach Park.

The opening week at this delightful new amusement resort proved a success far beyond the anticipations of the management, consequently the faces of General Manager Geo. Jacobson and Manager of Amusements Geo. Vucovich were wreathed in smiles when the last car on the bayshore line came to the city last night with the last of the big Saturday night crowds who visited the places during the evening. And, really more to the point than the delight of the management with their week's business, was the delight of their patrons with the quality of amusement, convenience of accommodations and excellence of service being maintained in every department of the delightful little recreation resort, by the management of the respective departments—amusements, refreshments and culinary.

The superb vaudeville bill presented

last week has been the talk of the city since its first presentation on Wednesday night, but it was not one whit better than the excellent three-act bill engaged for this week, which is given in detail in the advertising columns of this issue of The Journal. The park will be open from 9 o'clock this morning until the return to the city of the last car on the bayshore line tonight, absolutely free to the public. During the afternoon and evening there will be sacred concerts by the park orchestra; also free moving pictures and illustrated songs—the latter in the evening.

Palmetto Beach Park indeed fills a void that has been more keenly felt perhaps than anything else that Pensacola has lacked since the days of the Deep Water City's village provincialism, and it is receiving the patronage that its promoters richly deserve for their enterprise in its establishment.

The onion topped the scales at two pounds, and shows what can be done with Escambia soil when properly cultivated.
